UFO CLEAN HIGHBAY

This modern Clean Area Highbay light has been designed to handle any washable environment. This versatile fixture can be used in food prep, cold storage, dry storage and freezer situations.

It includes built in microwave sensor with 0-10 V dimming and daylight harvest function, and also provides very strong heat dissipation.

UFO CLEAN HIGHBAY

Advantages

- Unique Food Prep Application
- High CRI
- IP65 driver
- Input voltage AC 100-277, 277-480 Vac
- No UV or IR in the beam
- Energy Efficient, Long Lifespan
- Instant start, NO flickering, NO humming
- Strong Heat Dissipation
- Durable corrosion-resistant powder coat finish
- Suitable for high pressure wash

Applications

- Freezers
- Dry Storage
- Cold Storage
- Production Floor
- Sanitary Areas
- Non Food Prep Areas
